

# COVID-19 Safety Policies

COVID-19 means we need to rethink the way shoots are run. Papercamera is establishing new policies to provide a safe environment for photography.

## Distance

- Only essential cast and crew will be allowed on set and productions must be kept to 10 people maximum, including talent/subjects and crew.
- Maintain a minimum of 6' of social distancing at all times and avoid unnecessary physical contact.
- No crew member should be near subjects, unless they are a hair or makeup artist.

## Adherence to sanitation protocols

- Everyone on set (other than subjects during photography or makeup) will wear masks covering the nose and mouth.
- Cast and crew required to frequently wash their hands and/or use hand sanitizer if hand washing stations are not available.
- Sanitation of equipment according to CDC guidelines
- Commonly touched items will be disinfected frequently. Sharing equipment is discouraged.
- Hand sanitizer and disinfectant wipes will be available on set.

## Enforcement

- Anyone who is sick is expected to stay home.
- Cast and crew required to sign production safety guidelines and adhere to the policies and procedures.
- Pre-screen all cast and crew before arrival. Anyone with symptoms or who has been in contact with a COVID-19 positive individual in the last 14 days won't be permitted.
- All cast/crew will need to check their temperature before coming onto set.

## During shoots

- Shoots will be planned to include the minimum number of crew needed.
- The camera will be a minimum of 6' away from people.
- Outdoor shoots are highly encouraged. If shooting indoors, we'll use an area that can easily be controlled and kept clean.

**Remote art direction can occur, but will limit scope of shoot.**

**Cancellation fee waived for illness.**
